Re: KVUE-TV Transmitter Building
Project #9408802

Dear Bob:

I had extra copies of the photos I had taken of the KVUE Transmitter building during our last walk-thru. I thought you might like them for reference or your files.

I also want to take this opportunity to thank you for the excellent job you performed as the General Contractor for this project. In addition to completing the project on time and under budget, you consistently looked for opportunities to enhance the overall quality of the project. The questions you asked me from the jobsite showed me that you had a thorough understanding of the construction documents and that you were conscientious of the design intent for the project. I know that our mutual client, KVUE-TV, is very pleased with the outcome of your efforts. It was a pleasure for me to work with someone who holds such high regard for the art of building. I certainly hope we will have more opportunities to work together in the near future. We at RTG, wish for continued success for you and for Heritage General Contractors.

Sincerely,

Timothy Pellowski, AIA
